

NANOTEC2009.IT POSTER SESSION PROGRAM:

Made in Italy, Cultural Heritage
Thursday April 2nd 2009

Poster Number	Corresponding author	Corresponding author organisation	Poster title	Country
1-MI	Giovanna Giuliana Buonocore	CNR - Istituto Materiali Compositi e Biomedici	Chitosan/montmorillonite (Na-MMT) nanocomposite film for food packaging applications: Preparation and characterization	Italy
2-MI	Alessandro Cannavale	Politecnico di Bari - Dip. di Architettura e Urbanistica	Nanostructured engineered surfaces exhibiting self-cleaning and antireflection effect	Italy
3-MI	Alessandra Ciappa	Associazione CIVEN	High performance polyester gelcoats containing surface-modified nanoparticles	Italy
4-MI	Serena Coiai	Dip. di Chimica e Chimica Industriale, Università di Pisa	Nanocomposite materials based on organo-modified layered double hydroxides (O-LDHs)	Italy
5-MI	Isabella Concina	SENSOR, CNR-INFM	Electronic Noses as Monitoring Tools For Food Quality Assessment At The End Of The Production Chain	Italy
6-MI	Patrizia De Marco	CASTI, CNR-INFM Regional Laboratory, and University of L'Aquila	Super hydrophobic and abrasion resistance of organic-inorganic hybrid coatings for industrial applications.	Italy
7-MI	Daniela Ferro	ISMN-CNR	Nanostructured Films of Refractory Carbides on Titanium Produced by Pulsed Laser and Electron Beam Deposition Techniques	Italy
8-MI	Kristian Kloeckl	Università luav di Venezia	NanoDesign - Industrial Design and Nanotechnology exploring new ways for the packaging of agricultural products.	Italy
9-MI	Amelia Montone	ENEA	Study of barrier property Polyvinylalcohol/ graphite nanosheets nanocomposites	Italy
10-MI	Alessandro Patelli	CIVEN	SiOx-based Multilayer Barrier Coatings produced by a Single PECVD Process	Italy
11-MI	Mariano Pracella	Istituto Materiali Compositi e Biomedici- CNR	Polypropylene - Polyhedral Oligomeric Silsesquioxanes (POSS) Nanocomposites: Phase Interactions, Morphology and Thermal Behaviour	Italy
12-MI	Davide Raffi	Università della Toscana c/o CNR Istituto di Cristallografia	A portable double-detection biosensor for agro-food and environmental monitoring	Italy
13-MI	Marco Scatto	C.I.P. Centro Italiano Packaging srl	Polyolefin nanocomposites prepared by melt compounding in a twin-screw extruder	Italy
14-CH	Clara Bertolini, Tanja Marzi	Politecnico di Torino - DIPRADI	Nanotechnologies for the conservation of timber construction belonging to cultural heritage	Italy
15-CH	Lucia D'Arienzo	Università degli Studi di Salerno - Dip. di Ingegneria Chimica e Alimentare	Protection and consolidation of tuff stone by means of innovative polymer-silicate nanocomposites	Italy
16-CH	Giuseppe Milazzo	Università degli Studi di Palermo	Nanostructured Gels for the Conservation of a Slate Painted Work of Art	Italy
